ELF Light Feeder

The ELF is a durable light-weight device that attaches to any extension pole with standard 3/4" ACME threads. Careful design considerations were given to shape and surfaces to allow strings of lights to pass through smoothly for placement at elevated heights.

ELF Hook

This clever hook attaches to the extension pole for making fine adjustments after the lights are hung. It is designed with a center slot which allows the light wire to drop in for control when pulling the string in a horizontal direction or grabbing the plug end. NOTE – EXTENSION POLE IS NOT INCLUDED

NATURAL CUT

Bring the outdoors inside with our beautiful natural cut trees. Using mostly polyurethane (PE) material versus traditional PVC allows the shape of the branches to have a more life-like appearance. Each branch is a mold injected section hand touched to give it a realistic feel.

POWER POLE

Our UL approved Power Pole tree takes only minutes to set up with minimal shaping required! Simply plug in one cord at the bottom of the tree into an outlet, insert each section into one another, and in an instant, watch your tree glow with lights.

REMOTE CONTROLLED

A handy addition to our color changing trees.
