Este MacLeod

Este MacLeod's paintings are influenced by the real and the imaginary. Her background in textile and ceramic design is noticeable in the stylized, abundant and colorful forms used in still life, landscape and floral paintings. The variety of techniques Este uses to layer color and shapes adds an ethereal element to her work.

Using layers of colors, patterns and textures and her trademark florals and simple plant forms, Este's work is fresh and whimsical.

An aerial photograph of a vast, dense forest covering a valley. A river winds through the forest on the right side of the frame. In the background, there are rolling hills and mountains under a sky with scattered clouds. The lighting suggests late afternoon or early morning, with long shadows and warm tones. The text "MADE IN" is overlaid in the center of the image.

MADE IN

An aerial photograph of a vast forested landscape. The foreground and middle ground are filled with dense evergreen and deciduous trees, some showing autumnal colors. A winding road is visible on the left side. In the background, a range of mountains with significant snow cover stretches across the horizon under a blue sky with scattered clouds. The word "MONTANA" is overlaid in large, white, bold, sans-serif capital letters across the center of the image.

MONTANA
