

# INTRODUCING

# OUR CANDLE COMPANY

The Gerson Companies, best in the industry for our LED flameless candle Line, now brings to market **Lone Elm Candle Company**, our line of scented wax filled burn candles. Our NEW candle line features an assortment of unique vessels made from glass, ceramic, cement, and wood, all of which are crafted to be reusable long after the candle's life.

Each candle in this collection is hand-poured with a proprietary blend of high-quality wax ensuring a longer, cleaner burn. The scents are carefully curated, designed to evoke different moods and atmospheres. Perfect for relaxation, meditation, or simply elevating the ambiance of any space.

# Our Fragrances

**Sandalwood:** *A harmonious blend of earthy, woody, and creamy notes, offering a soothing and grounding scent experience. Its fragrance encompasses a sweet and slightly spicy profile, exuding a depth that hints at incense-like sweetness and a subtle, musky undertone.*

**Driftwood:** *A distinctive blend of natural, woody, and maritime elements. It often carries oceanic note, reminiscent of the sea, with hints of saltwater, seaweed, and a touch of sea breeze and a sense of being weathered by the elements.*

**Fresh Linen:** *This scent encapsulates a crisp, clean, and airy fragrance reminiscent of freshly laundered fabrics. It carries a delicate, light aroma, evoking a sense of purity and cleanliness.*

**Sunkissed:** *Conjures up a vibrant, warm, and radiant aroma sensation. It's reminiscent of sun-soaked elements and carries a blend of aromas including the subtle hint of warm, sun-drenched skin, with a touch of coconut and tropical oils.*

**Sweet Vanilla:** *Our vanilla scent is warm, sweet, and inviting, derived from the aromatic compounds found in the vanilla bean. It is often described as having a rich, creamy, and slightly spicy aroma creating a comforting and familiar fragrance that evokes a sense of warmth and coziness.*

**Baked Apples:** *A comforting and inviting aroma that carries the sweet, warm essence of your childhood home with a hint of spices. It features the rich, sugary sweetness of caramelized apples, accompanied by notes of cinnamon, nutmeg, and cloves.*

**Sugar Cookies:** *A warm embrace from the oven—sweet, buttery, and comforting. Imagine notes of caramelized sugar mingling with the rich scent of butter, creating an inviting, cozy atmosphere.*

**Autumn Spice:** *A warm, inviting blend that captures the essence of the fall season. It combines a medley of rich, comforting spices like pumpkin, cinnamon, nutmeg, cloves, and a hint of ginger.*

**Winter Pine:** *The winter pine scent transports you to a snowy forest with its sharp and invigorating aroma of fresh pine needles. A crisp coolness fills the air, capturing the essence of a brisk winter day with woody undertones that add a grounded and natural element.*

# OUR SPECS

**Why our candles?** Convenience of shopping candles from a company you already trust and shop with, unique containers with great fragrances, and affordable prices. For these reasons, we encourage you to try our beautiful wax candle line if you do not already sell candles, or add these to your existing candle selection.

## Wax Blends

The Lone Elm Candle Company line of candles are made with a Paraffin/Palm blend wax or Paraffin/ Soy blend wax. The benefits of our waxes are:

**1. Accessibility and Affordability:**

Palm oil and paraffin wax is widely available and tends to be more affordable than other options.

**2. Scent Retention:**

Paraffin wax candles are known for their strong scent throw, meaning they can distribute fragrance more effectively, providing a pleasant and aromatic ambiance.

**3. Smooth and Even Burning:**

Paraffin wax has a low melting point, resulting in a smooth and even burn. This characteristic contributes to a longer-lasting candle.

**4. Palm Oil as a Renewable Resource:**

When sourced sustainably, palm oil can be considered a renewable resource. Our waxes pass a rigorous inspection process before being put out in the US market.

# Wax, Wicks & other fun facts

## Wicks

Lone Elm Candles are made with cotton wicks containing a zinc core. Our wicks are attached to a metal sustainer that is glued onto the vessel. This will keep the wick from moving around or floating when the wax gets hot and liquefies. Our wax is applied to the wick and adjusted to the proper diameter to maximize fragrance and burn performance. To maximize candle burn time, blow the candle out every 3 to 4 hours and trim the wick to one fourth of an inch from the wax before lighting again.

## The Wick Mushroom

Our cotton wicks form a black cluster at the top of the wick when burning. This is a normal occurrence and means the wick is doing its job and maximizing the fragrance throw. After 3 to 4 hours, blow out the flame and allow the wax to harden. Never tip or move a candle that is burning, or the wax is in a liquid form. Trim the wick by tilting sideways over a trash container and remove the remnants of the mushroom before re-lighting. Always follow closely directions found on the warning label on the bottom of your candle.

## Wax

Lone Elm Candle Company's candles burn safely. They meet and exceed all industry standards concerning the longevity of actual burn times. Our wax blend offers a consistent performance. The actual burn time can vary if instructions found on the bottom of your candle are not followed. Avoid drafty areas and never leave a burning candle unattended.

## Fragrance, Hot & Cold Scent Throw

Lone Elm Candle Company is committed to creating the best fragrances for our candles. We worked direct with the best international fragrance houses. Like food, fragrance is subjective to individual customers' taste. Lone offers a range of fragrances that present something for everyone, even those customers with the most discriminating taste.

Our fragrances individuals to relax; go to a special place, and remind them of fond memories. Enjoy the fragrance journey. That's what Lone Elm Candle Company is all about.
