# Our Collaboration with the William Morris Gallery

William Morris At Home is a genuine and authentic William Morris brand, developed in partnership with William Morris Gallery. Custodian of the artist's legacy and uniquely, a not-for-profit organisation, The Gallery is dedicated to preserving and promoting Morris's life and work.

A passionate collaborator, William Morris worked with friends and family to produce his iconic designs. In keeping with this spirit, William Morris At Home has partnered with a public museum whose charitable aims align with Morris's own values.

This partnership is more than symbolic—it will serve as a vital source of funding for the Gallery. It will also help share Morris's legacy with future generations and support the Museum's charitable art initiatives, which aim to enrich lives through creativity and culture.

Inspired by William Morris' belief in the harmony of beauty, utility, and responsible craftsmanship, we are committed to respecting the environment in everything we create.

Our designs are made to be reused and recycled. We prioritise sustainable materials and ethical production, including:

- Post-consumer recycled plastic**
- Recyclable** glass bottles and aluminium tubes
- Kraft paper tubes**
- Vegan leather** alternatives
- Packaged in paper board sourced from responsibly managed forests**, printed with soy and vegetable based inks
- RSPO-certified ingredients**
- Vegan formulations**

We're constantly researching and innovating to further improve our sustainability practices and reduce our environmental impact.

"We are only the trustees for those who come after us."

## SEAMOSS EXTRACT

This extract is rich in vitamins, all of which play a role in nourishing the skin to help enhance the natural moisture barrier of the skin.

## PATCHOULI

An oil well known for its anti-aging and skin cell regenerating properties. Allowing the skin to feel soft and hydrated and soothe inflammation.

## AVOCADO OIL

Derived from the avocado fruit, this oil is packed full of vitamins and nutrients that are beneficial to the skin. With the ability to absorb into the skin quickly it not only acts as a great moisturiser but also soothes and protects the skin.

## JOJOBA

A popular ingredient in cosmetics due to its ability to mimic the skin's sebum. It provides an abundance of benefits for the skin from moisturising to conditioning.

## BLACK PEPPER SEED EXTRACT

Black Pepper Seed Extract is considered to have skin conditioning properties carrying a refreshing tonic-like nature.

## REISHI MUSHROOM

The Reishi mushroom is believed to bring skin benefits such as reducing skin inflammation, puffiness, wrinkles and free radical damage, while also promoting cell regeneration. A staple in traditional Chinese medicine, reishi, which translates to "spiritual potency," is known as the herb of immortality.

## CALENDULA MARIGOLD FLOWER OIL

Calendula Marigold Flower Oil helps improve the appearance of dry or damaged skin by reducing flaking and restoring suppleness. It slows the loss of water from the skin by forming a barrier on the skin's surface.

## COCOA SEED BUTTER

Cocoa Seed Butter helps protect injured or exposed skin from irritants; slows the loss of water from the skin by forming a barrier on the skin's surface, helping provide relief.

## COCONUT OIL

Coconut Oil is very popular and often used in product formulations to reduce dryness of the skin, to assist in moisturisation after exposure to the sun and other harsh elements.

## CORNFLOWER FLOWER EXTRACT

Cornflower Flower Extract is known to have skin conditioning, soothing and stimulating properties.

## MORINGA SEED OIL

Moringa Seed Oil is a nutrient-dense oil, filled with antioxidants that slow the aging process down and help curb the activity of free radicals; it helps remove wrinkles and prevent sagging of facial skin.

## PRO-VITAMIN B5

Pro-Vitamin B5 functions to help a product retain water thus providing a moisturising effect in skin products.

## ROSEMARY LEAF OIL

Rosemary Leaf Oil is a skin conditioning agent, rich in antioxidants that help maintain skin function.

## ROSEHIP BRIAR ROSE SEED OIL

## Frequently Asked Questions

### Q. HOW DO ESSENTIAL OILS WORK?

The molecules are easily dissolved which allows them to penetrate the skin easily and work into the body by mixing with the fatty tissue. Meantime, as the essences evaporate they are inhaled, entering the body via the millions of sensitive cells that line the nasal passages. These send messages straight to the brain, and affect the emotions by working on the limbic system, which also controls the major functions of the body.

### Q. WHAT ARE THE BENEFITS OF VITAMIN E FOR THE SKIN?

Vitamin E is vital in protecting skin cells from ultra violet light, pollution, drugs, and other elements that produce cell-damaging free radicals, as it is an anti-oxidant. Vitamin E helps skin look younger by reducing the appearance of fine lines and wrinkles and helps reduce the appearance of stretch marks. It can also help prevent the appearance of age spots and strengthen the skin's barrier function and helps maintain the skin's oil balance during the cleansing process.

### Q. DO HEATHCOTE & IVORY TEST ON ANIMALS?

Absolutely not. None of the Heathcote & Ivory, RHS, Sara Miller, Morris & Co. or Cath Kidston products are tested on animals, only on us! We make it a rule not to allow any animal derivatives in our products.

### Q. WHAT IS GLYCERIN?

Glycerin is one of the most versatile and valuable substances known to man and has no known negative environmental effects. A water clear, odourless, viscous liquid with a sweet taste; it attracts moisture to the skin and is an ideal ingredient to include in soap.

We have taken every care to ensure that when going to press, all products are presented to you, as they will appear. Slight variations may occur in colours or blends, in price or in appearance, no liability can be accepted for errors or omissions. We reserve the right to make price changes without prior notice.

### Q. WHERE DOES SHEA BUTTER COME FROM?

Shea butter, also known as, 'karite butter', is a cream-coloured fatty substance made from the nuts of karite nut trees that grow in the savannah regions of West and Central Africa. Karite trees, or shea trees, are not cultivated. They grow only in the wild and can take up to 50 years to mature and live up to 300 years.

### Q. WHY USE SHEA BUTTER IN LIP BALM AND HAND CREAM?

Shea butter has moisturising benefits and has been used to help heal burns, sores, scars, dermatitis, psoriasis, dandruff, and stretch marks. It may also help diminish wrinkles by moisturising the skin, promoting cell renewal, and increasing circulation, its soft, butter-like texture melts readily into the skin.

### Q. WHAT ARE ESSENTIAL OILS?

Essential oils are therapeutic-grade oils, distilled from plants, shrubs, flowers, trees, roots, bushes and seeds and are composed of tiny molecules. Essential oils contain the true essence of the plant it was derived from, they are highly concentrated and a little goes a long way.

### Q. WHAT ARE THE BENEFITS?

Essential oils are able to enhance both your physical and psychological well being at the same time. Its distinct chemical composition, which determines its fragrance, colour, volatility and the way in which it affects the system, gives each essential oil its unique set of beneficial properties. For example, the chemical component ester acts as a sedative, a calming agent, an anti-fungal and an anti-inflammatory; esters are found in lavender, chamomile, bergamot and sage.
